

Sweeti Yuonate

DATA ENGINEER | SQL | PYTHON | MICROSOFT FABRIC

+91-7517807587 sweetiyuonate03@gmail.com linkedin.com/in/sweetideveloper github.com/sweetideveloper

PROFESSIONAL SUMMARY

Data-focused engineering professional skilled in SQL, Python, Microsoft Fabric, Power BI, DAX, Power Query, and data analytics. Experienced in data cleaning, transformation, EDA, business reporting, and analytical SQL using JOINS, CTEs, subqueries, window functions, and optimization. Built projects in banking, retail, automobile analytics, and AI, transforming raw data into actionable insights.

TECHNICAL SKILLS

Programming: Python, SQL

Data Engineering: Microsoft Fabric, Data Transformation, Data Cleaning, Data Preprocessing, Data Validation, Data Quality Checks, ETL Concepts, Data Modeling

SQL: JOINS, CTEs, Subqueries, Window Functions, Aggregate Functions, CASE Statements, GROUP BY, ORDER BY, Query Optimization

Microsoft Fabric: Microsoft Fabric, SQL Analytics, Data Analysis

Python Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Analytics: Exploratory Data Analysis, Data Visualization, Statistical Analysis, Business Reporting

BI Tools: Power BI, Power Query, DAX, Dashboard Development, KPI Reporting, Data Modeling

Excel: Pivot Tables, XLOOKUP, VLOOKUP, Conditional Formatting, Data Cleaning, Data Analysis

Generative AI: LLMs, Prompt Engineering, Groq API, LangChain, Gemini AI, Conversational AI

Tools: Git, GitHub, Jupyter Notebook, VS Code, Docker Basics, Streamlit

EXPERIENCE

Data Analyst Intern

Feb 2026 – Jun 2026

Edvercity LiveTech, Nagpur

- Analyzed, cleaned, and validated business data; created Power BI dashboards and KPI reports to identify trends, generate insights, and support data-driven decision-making.

PROJECTS

Banking Transactions Analysis

SQL | Microsoft Fabric

- Analyzed banking data using SQL to identify transaction patterns, customer activity, and account performance.
- Used JOINS, CTEs, subqueries, aggregations, CASE statements, and window functions for analysis.
- Optimized SQL queries to generate actionable insights for financial reporting.

Retail Data Analysis

Python | Pandas | NumPy | Matplotlib | Seaborn

- Analyzed retail data to identify customer behavior, sales patterns, and business trends.
- Performed data cleaning, transformation, and EDA using Python, Pandas, and NumPy.
- Created visualizations using Matplotlib and Seaborn to communicate key insights.

Automobile Sales Manufacturing Analytics Dashboard

Power BI | Power Query | DAX

- Analyzed automobile sales, pricing, performance, and manufacturer trends.
- Cleaned and transformed data using Power Query and developed DAX measures.
- Built an interactive Power BI dashboard with KPIs, slicers, and sales analytics.

AI Chatbot Assistant

Python | Groq API | Streamlit | NLP

- Developed an AI chatbot using LLMs, Groq API, and NLP for real-time query responses.
- Built an interactive Streamlit application for conversational AI.

EDUCATION

Yeshwantrao Chavan College of Engineering, Nagpur

Bachelor of Technology

2022 – 2025

Government Polytechnic, Nagpur

Diploma

2019 – 2022

CERTIFICATIONS

- Microsoft Certified: Fabric Data Engineer Associate – Microsoft
- Microsoft Certified: SQL AI Developer Associate – Microsoft
- Code in Place 2026 – Stanford University, Python Programming
