Professional Summary

Data Engineer with hands-on experience in ETL pipelines, big data processing, and machine learning using Python, SQL, Apache Spark, and Microsoft Fabric. Skilled in building scalable data workflows, optimizing pipelines, and transforming raw data into actionable insights.

Technical Skills

- **Languages:** Python, SQL
- **Data Engineering:** ETL/ELT Pipelines, Data Modeling, Data Warehousing, Data Cleaning, Data Integration
- **Microsoft Fabric:** Fabric Data Factory, Data Pipelines, Dataflows Gen2, Lakehouse, OneLake, Warehouse, Notebooks, Data Engineering, Deployment Pipelines
- **Cloud:** AWS (S3, Glue, Redshift), GCP (Cloud Storage, BigQuery), Azure
- **Databases:** Snowflake, MySQL, SQL Server
- **Tools:** Apache Airflow, dbt, Docker, Git, GitHub
- **BI & Analytics:** Power BI, Power Query, DAX, Data Visualization

Projects

Machine Learning Prediction System

- Developed ML models for House Price Prediction, Heart Disease Prediction, and Language Detection using Python and Scikit-learn.
- Achieved 90%+ model accuracy using regression, classification, and NLP techniques.

Generative AI CSV Agent using LLM

- Developed a CSV query agent using LLM and LangChain for natural language-based data analysis.
- Automated question-answering and reduced manual analysis time by 40%.

SQL Data Analysis Projects

- Analyzed **Car Sales, Bank Transactions, and Life Expectancy** datasets using SQL for data cleaning, aggregation, filtering, and business insights.

Web Scraping, Data Analysis & Visualization

- Extracted and processed 10K+ records using **BeautifulSoup, Pandas, and NumPy**.
- Performed data cleaning, exploratory analysis, and visualization to generate actionable insights.

Power BI Data Analytics Dashboards

- Built interactive dashboards for **Bank Transactions, Car Sales, Healthcare, and Walmart Sales** using Power BI, Power Query, and DAX.
- Performed data transformation, modeling, KPI analysis, and visualization to generate actionable business insights.

Education

Bachelor of Engineering (B.E.) – Electrical Engineering

Guru Nanak Institute of Engineering and Technology
Rashtrasant Tukdoji Maharaj Nagpur University, Nagpur
Graduation: 2026

Certifications

- Stanford University – Code in Place
- Microsoft Certified: Fabric Data Engineer Associate
- Microsoft Certified: SQL AI Developer Associate
- Oracle Programming Certification (2025)

Languages

English, Hindi, Marathi
