Professional Summary

Aspiring Data Engineer with hands-on experience building ETL pipelines and processing large-scale datasets using Python, SQL, Apache Spark, and Hadoop. Skilled in designing scalable data workflows, optimizing performance, and transforming raw data into actionable insights for analytics and machine learning.

Technical Skills

- **Languages:** Python, SQL
- **Data Engineering:** ETL Pipelines, Data Modeling, Data Warehousing, Data Cleaning
- **Big Data Tools:** Apache Spark, Hadoop, Hive, Kafka
- **Tools:** Apache Airflow, dbt, Docker
- **Cloud:** AWS (S3, Redshift, Glue), Azure, GCP
- **Databases:** MySQL, Snowflake, SQL Server

Projects

Web Scraping and Data Analysis (2026)

- Developed automated web scraping pipelines using Python (BeautifulSoup, Requests) to extract 10K+ records from multiple sources
- Processed and analyzed datasets using NumPy and Pandas, improving data handling efficiency by 30%
- Cleaned and transformed raw data to enhance data quality and consistency
- Visualized insights using Matplotlib to identify trends and patterns
- Stored processed data in CSV and Excel formats for downstream analysis
- Implemented error handling and logging, reducing scraping failures by 25%

Data Visualization Project (2026)

- Collected and processed structured and unstructured data using Pandas and NumPy
- Built 10+ visualization types (bar, line, histogram, scatter, area, stacked, funnel, donut) using Matplotlib and Seaborn
- Analyzed datasets to identify key trends, improving decision-making insights
- Optimized data aggregation using groupby and lambda functions

Big Data Processing System (Spark + Hadoop) (2024)

- Built distributed data pipelines using Apache Spark to process large-scale datasets (50K+ records)
- Performed data processing and querying using Hadoop and Hive
- Improved processing performance and scalability by 35% using distributed computing techniques

Education

Bachelor of Engineering (B.E.) – Electrical Engineering

Guru Nanak Institute of Engineering and Technology
Rashtrasant Tukdoji Maharaj Nagpur University, Nagpur
Expected Graduation: 2026

Certifications

- Oracle Programming – E-Max India (2025)
- GCC-TBC – Maharashtra State Council of Examination (2022)

Languages

English, Hindi, Marathi

Additional Information

- Strong understanding of batch and real-time data processing concepts
- Familiar with data pipeline optimization and workflow orchestration
- Problem-solving mindset with focus on scalable data solutions
