SUMMARY

Data Analyst skilled in SQL, Python, and Power BI with experience in ETL processes, data pipelines, data validation, and SQL optimization. Proven ability to automate reporting, build dashboards, and deliver actionable business insights for data-driven decision-making.

TECHNICAL SKILLS

- **Programming:** Python, SQL
- **Libraries:** Pandas, NumPy
- **Databases:** MySQL, SQL Server
- **BI Tools:** Power BI, DAX, Power Query
- **Techniques:** ETL, EDA, Data Modeling, Data Warehousing, Data Validation, KPI Reporting, SQL Optimization, Data Analysis Lifecycle
- **Tools:** Excel, SSMS, Power BI Desktop, Jupyter Notebook, Git

PROJECTS

Hospital Patient Visit & Treatment Analysis

- Analyzed 2,000+ patient records to identify trends and improve operational efficiency
- Performed ETL processes and data transformation using SQL, improving data accuracy by 30%
- Built KPI dashboards for patient volume, cost analysis, and departmental performance
- Applied SQL optimization techniques, reducing reporting time by 25%

Customer Churn Analysis

- Analyzed 2,000+ customer records with 30+ features to identify churn patterns and risk segments
- Conducted EDA to uncover key business insights and improve retention strategies
- Developed data pipeline and handled missing data using SQL functions, improving data quality by 35%
- Created dashboards and reports for churn rate, revenue trends, and customer segmentation

Zapp Sales Analysis

- Analyzed 1,000+ sales records using Python (Pandas, NumPy) for revenue and product insights
- Performed data cleaning, preprocessing, and data validation improving quality by 25%
- Identified top-performing products contributing to 40% of total revenue
- Generated actionable business insights to optimize sales strategy

EXPERIENCE

Data Analyst Intern

Dec 2025 – Present

Edversity LiveTechSkill, Nagpur, India

- Performed data cleaning, preprocessing, and ETL processes using Python and SQL
- Conducted EDA to identify trends, patterns, and business insights
- Automated reporting and built dashboards using Power BI, improving efficiency by 20%

Project Intern

Dec 2024 – Feb 2025

Qaswa Technologies Pvt. Ltd., Nagpur, India

- Designed and implemented a database management system using MySQL
- Developed SQL queries, stored procedures, and reports to improve data accessibility
- Assisted in testing, debugging, and performance optimization

EDUCATION

B.Tech in Electronics & Telecommunication	Nov 2022 – May 2025
R.T.M.N.U University, Nagpur, India	
Diploma in Computer Science	Aug 2019 – Aug 2022
M.S.B.T.E, Nagpur, India	

AWARDS

-
- Received IEOM Undergraduate Student Paper Competition Award (Nov 2024)
 - Recognized by IEOM Society International for Secure Database Access Management System

LANGUAGES

English, Hindi
