

Madiha Khan

Data Analyst

Nagpur, Maharashtra, India | +91 9322407010
madihaokhan2000@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Results-driven Data Analyst skilled in SQL, Python, Power BI, Advanced Excel, ETL, dashboard development, EDA, KPI reporting, and business intelligence solutions. Experienced in data cleaning, visualization, automation, and transforming complex datasets into actionable business insights using Power BI, DAX, Power Query, Pandas, NumPy, and Scikit-learn.

TECHNICAL SKILLS

- Programming Languages & Databases:** Python, SQL, MySQL
- Data Analysis:** ETL, EDA, Data Cleaning, Data Modeling, Statistical Analysis, Data Validation
- Libraries & Frameworks:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, LangChain
- Visualization & BI Tools:** Power BI, DAX, Power Query, KPI Dashboards, Looker Studio
- Tools & Platforms:** Advanced Excel, Pivot Tables, VLOOKUP, Jupyter Notebook, Streamlit, Git, GitHub, VS Code, MySQL Server

PROFESSIONAL EXPERIENCE

Data Analyst Intern

Dec 2025 – Present

Edversity LiveTechSkill, Nagpur, India

- Performed ETL processes, data extraction, cleaning, preprocessing, and transformation using SQL and Python on large datasets.
- Conducted exploratory data analysis (EDA) to identify trends, anomalies, patterns, and business growth opportunities.
- Developed 10+ interactive Power BI dashboards and automated reports, improving reporting efficiency by 20%.
- Created KPI dashboards and business performance reports to support stakeholder decision-making and operational analysis.
- Improved reporting reliability and data accuracy through validation, preprocessing, and quality assurance techniques.

PROJECTS

Groq Data Assistant AI | Python, SQL, Streamlit, LangChain

GitHub Repo | Live Demo

- Developed an AI-powered CSV analytics assistant for natural language-based data querying and automated business insights generation.
- Enabled chatbot interaction, file uploads, automated summaries, and analytical reporting workflows.
- Generated interactive visualizations using Matplotlib and Seaborn for reporting dashboards and trend analysis.
- Integrated Groq LLM API and LangChain to automate workflows and improve reporting efficiency.

House Price Prediction using Machine Learning | Python, Scikit-learn, Streamlit

- Developed a machine learning-based house price prediction system using Python and Scikit-learn on 15K+ real estate records.
- Performed preprocessing, feature engineering, regression analysis, and model evaluation to improve prediction accuracy.
- Built predictive analytics workflows using Pandas, NumPy, and Scikit-learn for trend analysis.
- Designed and deployed an interactive Streamlit application for real-time property price estimation.

Healthcare Data Analysis & BI Dashboard | SQL, Power BI

- Performed data cleaning, preprocessing, and analysis on hospital datasets using SQL and Power BI.
- Analyzed admissions, department performance, ICU utilization, and billing trends using advanced SQL queries.
- Developed KPI dashboards for patient count, revenue analysis, and operational reporting.
- Utilized JOINS, CTEs, GROUP BY, aggregations, and window functions for analytical reporting.

Sales Performance & Business Intelligence Analysis | Python, Pandas

- Performed exploratory data analysis (EDA) and preprocessing on 10K+ operational records using Python and Pandas.
- Analyzed customer behavior and delivery operations, identifying 15% operational improvement opportunities.
- Created 20+ visualizations and analytical reports using Matplotlib and Seaborn.
- Identified anomalies and performance metrics, improving insight generation and reporting efficiency by 25%.

EDUCATION

B.Tech in Electronics and Telecommunication Engineering

2022 – 2025

R.T.M.N.U University, Nagpur

Diploma in Computer Science Engineering

2019 – 2022

M.S.B.T.E, Nagpur

ADDITIONAL

Achievements: IEOM Undergraduate Student Paper Competition Award (2024), Recognized for Secure Database Access Management System Project

Languages: English, Hindi
