PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, Python, Power BI, Excel, ETL, dashboard development, reporting automation, and data visualization. Skilled in analyzing complex datasets, transforming raw data into actionable insights, developing KPI reports, and delivering business intelligence solutions to support data-driven decision-making.

TECHNICAL SKILLS

- **Programming:** Python, SQL
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
- **Databases:** MySQL, SQL Server
- **BI Tools:** Power BI, DAX, Power Query
- **Analytics:** Data Analysis, EDA, Statistical Analysis
- **Visualization:** Dashboards, KPI Reports, Charts, Reports
- **ETL:** Data Cleaning, Transformation, Validation
- **Tools:** Excel, Pivot Tables, VLOOKUP, Git, GitHub, Jupyter Notebook, Streamlit

PROFESSIONAL EXPERIENCE

Data Analyst Intern

Dec 2025 – Present

Edversity LiveTechSkill, Nagpur, India

- Performed data extraction, cleaning, preprocessing, and ETL processes using Python and SQL.
- Conducted exploratory data analysis to identify trends, anomalies, and growth opportunities.
- Built Power BI dashboards and automated reports, improving reporting efficiency by 20%.
- Developed KPI metrics and business reports for management stakeholders.
- Improved data accuracy through validation and quality checks.

Project Intern

Dec 2024 – Feb 2025

Qaswa Technologies Pvt. Ltd., Nagpur, India

- Designed and maintained relational databases using MySQL.
- Developed optimized SQL queries, joins, procedures, and reports.
- Assisted in debugging, testing, and performance tuning.
- Improved accessibility of business data through structured database design.

PROJECTS

Groq Data Assistant AI — Python, SQL, Streamlit, LangChain

GitHub Repo — Live Demo

- Developed AI-powered CSV analytics assistant for natural language data querying.
- Enabled file upload, chatbot interaction, automated summaries, and business insights.
- Generated interactive charts using Matplotlib and Seaborn.
- Integrated Groq LLM API for real-time responses and automation.

Groq AI ChatBot — Python, Streamlit, LangChain

GitHub Repo — Live Demo

- Built intelligent chatbot for real-time user interaction and query handling.
- Implemented secure API integration and scalable modular architecture.
- Designed expandable features including memory and document Q&A.

Hospital Patient Visit and Treatment Analysis — SQL, Power BI

- Analyzed 5,000+ healthcare records to identify disease and treatment trends.
- Used SQL joins, CASE statements, and window functions for reporting.
- Improved visibility of patient demographics and treatment cost insights.

Customer Churn Analysis — SQL, Power BI

- Analyzed 2,000+ customer records to identify churn risks and retention patterns.
- Improved data quality by 35% through cleaning and ETL workflows.
- Built dashboards for churn rate, revenue, and customer segmentation.

Sales Performance Analysis — Python

- Analyzed 1,000+ sales transactions for product and revenue insights.
- Improved data quality by 25% through preprocessing and validation.
- Identified products generating 40% of total revenue.

EDUCATION

B.Tech in Electronics and Telecommunication Engineering R.T.M.N.U University, Nagpur, India	2022 – 2025
Diploma in Computer Science Engineering M.S.B.T.E, Nagpur, India	2019 – 2022

CERTIFICATIONS

• Data Analytics Certification
• Power BI Dashboard Development
• SQL for Data Analysis
• Python for Data Science

ACHIEVEMENTS

• IEOM Undergraduate Student Paper Competition Award (2024)
• Recognized for Secure Database Access Management System Project

LANGUAGES

English, Hindi, Urdu
