Nagpur City, Maharashtra | 9359731539 | @Dnyaneshwar-Developer | @mail | @linkedin | @github

PROFESSIONAL SUMMARY

Aspiring Data Professional with knowledge of Data Science, Data Engineering, Data Analysis, and Machine Learning. Proficient in Python, SQL, and data manipulation libraries like Pandas and NumPy. Experienced in data cleaning, exploratory data analysis, and basic machine learning model building. Eager to apply analytical and problem-solving skills to drive data-driven decision-making.

AWARDS AND CERTIFICATIONS

Introduction to Python	March 2026
Generativr AI	March 2026
Analyzing Data with PowerBI	March 2026
Pandas for Data Analysis in Python	March 2026

TECHNICAL SKILLS

Programming Languages	: Python, SQL, HTML, CSS , JavaScript
Data Analysis & Libraries	: Pandas, NumPy, Matplotlib, Seaborn
Machine Learning	: Scikit-learn, Supervised & Unsupervised Learning, Model Evaluation
Data Engineering Basics	: Data Cleaning, ETL Processes, Data Pipelines (Basic)
Databases	: MSSQL, Oracle(PL/SQL)
Tools & Platforms	: Jupyter Notebook, Google Colab, Git, Excel
Core Concepts	: Data Structures & Algorithms, DBMS, Statistics, Probability
Soft Skills	: Problem Solving, Analytical Thinking, Communication

EXPERIENCE

Data Analyst Intern Edverciity	March 2026-Present
- Analyzed datasets using Python libraries such as Pandas and NumPy to extract actionable insights. - Performed data cleaning, preprocessing, and transformation to improve data quality and usability. - Created visualizations using Matplotlib/Seaborn to identify trends and support decision-making. - Worked with SQL to query and manage structured data from databases. - Assisted in building basic machine learning models for predictive analysis. - Collaborated with team members to deliver data-driven solutions and reports.	

EDUCATION

Rashtrasant Tukadoji Maharaj Nagpur University	B.Tech in Computer Science SGPA : 6.50	July 2023 – August 2026
Maharashtra State Board of Technical Education	Diploma in Information Technology GPA : 7.20	August 2019 – June 2023
S R Convent, Shelubazar	10th (SSC) Percentage : 85%	Passed out in 2019

PROJECTS

Gopuff Delivery Data Analysis Python, Pandas, NumPy, Matplotlib, Seaborn	GitHub
- Performed exploratory data analysis (EDA) on delivery datasets to identify trends, patterns, and key performance metrics. - Cleaned and preprocessed raw data using Pandas and NumPy to ensure accuracy and consistency. - Created visualizations using Matplotlib and Seaborn to analyze delivery times, order patterns, and operational efficiency. - Derived actionable insights to improve delivery performance and optimize business decisions.	
House Price Prediction Python, NumPy, Pandas, Scikit-learn, Matplotlib	GitHub
- Developed a machine learning model to predict house prices based on features such as area, location, and number of rooms. - Performed data preprocessing, cleaning, and feature engineering using Pandas and NumPy. - Implemented Linear Regression model and evaluated performance using R² score and error metrics. - Visualized data patterns and model results using Matplotlib for better insights.	
AI Text Generator (Gen AI) Python, OpenAI API, NLP	
- Developed a Generative AI-based text generator using OpenAI API to generate human-like responses. - Implemented prompt engineering techniques to improve response quality and relevance. - Built a simple interface to take user input and generate AI-based outputs. - Explored NLP concepts such as text generation and language modeling.
